GRUFT18BLK2X	FLEECE PULLOVER-BLK-2X	633 4	61.26	57.17	GRUNDENS USA, LTD	Fleece Pullover. Fabric: it is soft, comfortable, and easy to care for, and exceptionally warm for its weight. Because it is quick-drying, it is ideal in damp environments. These Gundéns garments are made from a non-pilling polyester fleece that has been treated with a 3M finish. This creates a special "moisture management finish" which adds to the natural wicking action of the fabric, transports moisture away from your skin, and helps keep you warm and dry. The Sitka pullover features a full cut hood with an extra long zipper that comes to the chin to protect the throat; pouch pocket with internal secret zippered pocket; adjustable cinch cord at waist and lycra cuffs.

Because it is quick-drying, it is ideal in damp environments. These Gundéns garments are made from a non-pilling polyester fleece that has been treated with a 3M finish. This creates a special "moisture management finish" which adds to the natural wicking action of the fabric, transports moisture away from your skin, and helps keep you warm and dry. The Sitka pullover features a full cut hood with an extra long zipper that comes to the chin to protect the throat; pouch pocket with internal secret zippered pocket; adjustable cinch cord at waist and lycra cuffs.

GRUH44ORGXS	HARVESTER HD JACKET-ORG-NEO-XS	633 4	102.64	95.79	GRUNDENS USA, LTD	Harvester Heavy Duty Jacket. For professionals who prefer a woven synthetic base fabric, we developed the Harvester. Abrasion and tear resistant the Harvester fits your needs. A woven polyester base fabric (3.76 oz. per yard) with PVC applied to both sides (15.5 oz. per yard) for a total weight of 19.24 oz. per yard. This heavy duty fabric is strong, long wearing and mildew resistant. Applications: All commercial fishing, building and road construction, timber harvest, agriculture, mining, shipyards, forestry, utilities. Features: Attached hood with draw cord, full cape sleeve design for unrestricted movement, double secure storm flap, chin strap and reinforced cuffs.
GRUP800GRNL	PETRUS 800 JKT HOOD/PKT-GRN-LG	633 4	115.55	107.84	GRUNDENS USA, LTD	Petrus 800 Hooded Jacket. A knitted polyester base material (2.6 oz. per yard), laminated to a PVC polyurethane layer (2.4 oz. per yard), for a total weight of 5 oz. per yard. The strength to weight ratio of this fabric is remarkable - an entire set (jacket and bibs) weighs just 2 pounds. Surprisingly tough, this fabric is suitable for many activities. Another attribute of this material is that it is quiet, an important consideration for hunters. Applications: All commercial fishing, building and road construction, timber harvest, agriculture, mining, shipyards, forestry, utilities, hunting, food processing, general boating. Features: Full-cut hood rolls up into collar; front closure is double secured with zipper and velcro, velcro adjustable cuffs and deep side pockets.

GRUS760NVY2X	SUND WTRPRF FLC LND P/O-NVY-2X	633 4	114.06	106.45	GRUNDENS USA, LTD	<p>Sund Waterproof Fleece Pull-Over. New fabric technology has made this garment possible. Comfortably dry and warm will never be the same again. The fabric is a laminated combination of 100% stretchy, waterproof polyurethane and a knitted polyester fleece. This is the ultimate fleece pullover for those who are out in the weather. The polyurethane outside resists dirt, oil and other stains while staying soft, flexible and waterproof. The polyester fleece lining moves moisture away from the body, staying warm and comfortable, even if wet.</p> <p>Applications: Hunting, fishing, sailing, outdoor construction, paddle sports, snow sports. This pullover has a corduroy collar, waterproof breast pocket, neck gusset, and snug fitting neoprene cuffs. The elastic shock cord waist closure allows for either a straight loose fit or a snug close fit depending on the situation; it is easily adjusted.</p>

GRUP762GRN2X	HOOD PULLOVR WTRPRF-GRN-2X	633 4	106.75	99.64	GRUNDENS USA, LTD	Hooded Pullover Waterproof. A knitted polyester base material (2.6 oz. per yard), laminated to a PVC polyurethane layer (2.4 oz. per yard), for a total weight of 5 oz. per yard. The strength to weight ratio of this fabric is remarkable - an entire set (jacket and bibs) weighs just 2 pounds. Surprisingly tough, this fabric is suitable for many activities. Another attribute of this material is that it is quiet, an important consideration for hunters. Applications: All commercial fishing, building and road construction, timber harvest, agriculture, mining, shipyards, forestry, utilities, hunting, food processing, general boating. Features: Neoprene cuffs, breast pocket, attached hood.

GRUWBCLK2X	WEATHER BOSS JKT BLK 2X	633 4	102.42	95.59	GRUNDENS USA, LTD	Weather Boss Jacket. We developed the Weather Boss garments to address the growing need for Grundéns quality in other types of protective clothing. The fabric is a 500 Denier nylon that is coated on the inside with a waterproof breathable barrier. This fabric is waterproof to 10,000 MM and breathable at a rate of 5,000 MVP. All seams are taped to eliminate water intrusion through stitching. This hard working jacket features a full size attached three piece hood with a hood height adjuster and concealed hood draw cords. Inside there is a lightweight mesh lining and two internal pockets. There is a snug fitting inner cuff to keep stuff out of your sleeves and a velcro adjusting strap on the outer cuff. The hem has a drop tail for better backside coverage but still has a shock cord tension adjuster that leads into the inner hand warmer pocket. The hand warmer pocket is actually two pockets in one. The outer pocket is a great place to put items you need easy access to, the inner pocket has a zipper closure.

Applications: All commercial fishing, building and road construction, timber harvest, agriculture, mining, shipyards, forestry, utilities. Features: Sacrificial layers made of a woven nylon base fabric which has PVC applied to both sides; it is light-weight, very strong, and will not mildew. This material is remarkable for its durability, flexibility at low temperatures (-30° F), and its resistance to mineral/animal oils and grease. If torn, the fabric underneath is unaffected. From the top of the bib to below the knees there is a double sacrificial layer of material.</p>

The Herkules 16 pant is made from a heavy cotton canvas base material (7.7 oz. per yard), coated with a special formulated PVC (10.3 oz. per yard) for a total weight of 18 oz. per yard. The PVC coating is specially designed to resist oils and to maintain flexibility in extremely cold temperatures. Applications: All commercial fishing, building and road construction, timber harvest, agriculture, mining, shipyards, forestry, utilities. Features: Grundéns' heaviest fabric. Side gusset for adjustable width. Fully reversible (front to back) for extended wear. Reinforced hems with riveted seam. Available with speed-clip suspender hook-ups.

GRUP116GRN2X	PETRUS 116 BIB PANT-GRN-2X	633 6	75.86	70.81	GRUNDENS USA, LTD	<p>Petrus 116 Bib Pant. A knitted polyester base material (2.6 oz. per yard), laminated to a PVC polyurethane layer (2.4 oz. per yard), for a total weight of 5 oz. per yard. The strength to weight ratio of this fabric is remarkable - an entire set (jacket and bibs) weighs just 2 pounds. Surprisingly tough, this fabric is suitable for many activities. Another attribute of this material is that it is quiet, an important consideration for hunters. Applications: All commercial fishing, building and road construction, timber harvest, agriculture, mining, shipyards, forestry, utilities, hunting, food processing, general boating. Features: The Petrus bibs feature a trimmer cut and fit than our Herkules pants. Reversible front/back. These bibs do not have a waist gusset but instead are cut much higher up the chest. Adjustable suspenders are the new speed-clip type.</p>

GRUP116YLWS	PETRUS 116 BIB PANT-YLW-SM	633 6	75.83	70.77	GRUNDENS USA, LTD	<p>Petrus 116 Bib Pant. A knitted polyester base material (2.6 oz. per yard), laminated to a PVC polyurethane layer (2.4 oz. per yard), for a total weight of 5 oz. per yard. The strength to weight ratio of this fabric is remarkable - an entire set (jacket and bibs) weighs just 2 pounds. Surprisingly tough, this fabric is suitable for many activities. Another attribute of this material is that it is quiet, an important consideration for hunters. Applications: All commercial fishing, building and road construction, timber harvest, agriculture, mining, shipyards, forestry, utilities, hunting, food processing, general boating. Features: The Petrus bibs feature a trimmer cut and fit than our Herkules pants. Reversible front/back. These bibs do not have a waist gusset but instead are cut much higher up the chest. Adjustable suspenders are the new speed-clip type.</p>

GRUS811NVY2X	SUND WAISTPANT-NVY-2X	633 6	109.60	102.29	GRUNDENS USA, LTD	<p>Sund Waist Pant. New fabric technology has made this garment possible. Comfortably dry and warm will never be the same again. The fabric is a laminated combination of 100% stretchy, waterproof polyurethane and a knitted polyester fleece. This is the ultimate fleece pullover for those who are out in the weather. The polyurethane outside resists dirt, oil and other stains while staying soft, flexible and waterproof. The polyester fleece lining moves moisture away from the body, staying warm and comfortable, even if wet. Applications: Hunting, fishing, sailing, outdoor construction, paddle sports, snow sports. Features: Single back pocket, strong elastic belt runs through web belt loops, velcro ankle closures.</p>
